Explain Pain Supercharged

Prof G. Lorimer Moseley and Assoc Prof David S. Butler
Noigroup Publications (2017) ISBN 978-0-6480227-0-1

Supercharge your understanding and treatment of pain

Moseley and Butler's brand new book is for all health professionals treating pain. The authors apply their unique style to take the neuroimmune science of pain further and deeper.

Explain Pain Supercharged will provide you with:

- Entirely original content
- Applicable educational strategies
- Curriculum development
- Hundreds of ready to use clinical metaphors and therapeutic narratives.

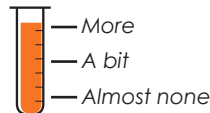

This book is jam-packed with everything you need to provide effective, memorable, evidence-based, individualised pain education and treatment.

This figure gives you an idea of where we see *Explain Pain Supercharged* book fitting within the Explain Pain suite.

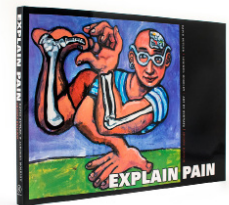

- It builds on *Explain Pain* and refers to it
- It utilises *The Explain Pain Handbook: Protectometer* – an interactive guidebook for taking on the EP journey
- It also draws on the metaphors and stories in *Painful Yarns*

EP Supercharged provides the reader (or we prefer to think of you as an adventurer) with the more complete scientific story that underpins these other resources, their content and their application.

Scientific Jargon Meter

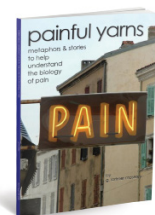

EXPLAIN PAIN
For pain sufferers, their clinicians and anyone interested in pain.

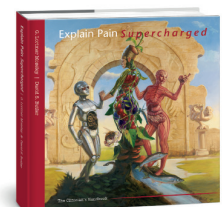

EXPLAIN PAIN HANDBOOK: PROTECTOMETER
For pain sufferers to use on their own or with clinicians.

PAINFUL YARNS
Metaphors and stories for pain sufferers and anybody interested in pain.

EXPLAIN PAIN SUPERCHARGED
For clinicians and interested pain sufferers.
